Accessories			
Apple iPad 2 Smart cover	2000		Beige/Tan-coloured leather cover for iPad 2 screen. Attaches magnetically and automatically sleeps the iPad when you close it and wakes when you open it.
Apple iPad 2 screen protector	1500		Screen protector film to stop the iPad getting scratched.
Authentic UK power cables: Kettle / Cloverleaf	1100		Fused plugs and high quality leads for reliably connecting equipment without needing US/UK power adaptors -- I have some Kettle-connector , some Cloverleaf (3-pin used on some laptop adaptors).

Low-power LED Lighting (220V AC)

LED Night-light	1930		Simply plugs into a socket and displays a fairly dim orange light useful for 1 of 2 things: seeing clearly when the power is on, and for reassuring children who are scared of the dark. Uses very little power.
Auto-sensing LED night light	3850		Nicely-shaped nightlight plugs into wall socket and turns on with a gentle white light automatically when it gets dark, and then turns off again when it's bright enough. Very low power consumption. Good for hallways etc at night.
Auto-sensing LED night light	3300		Similar to above but a little larger, cheaper and not quite as bright.
B22 Bayonet Fitting			
5W = 60W incand	3030		Replace a compact fluorescent (energy-saving) bulb and get the same brightness for half the power consumption, immediate full brightness, and a bulb with no toxic mercury which can survive being dropped! ----- B22 is bayonet fitting.
9W = 90W incand, warm white	1650		
9W, SMD5050 LED lamp, warm white	3300		
Screw & Other Fittings			
E14 fitting, 8W = 80W incand, cool white	1930		Replace a compact fluorescent (energy-saving) bulb and get the same brightness for half the power consumption, immediate full brightness, and a bulb with no toxic mercury which can survive being dropped!
LED spotlight, downlighter, E14 fitting, 3W	830		

Item	Price (₹)	Photo	Description / Detail
LED candle bulb E12 fitting, like 60W incand	1510		E14 is a small screw fitting for candelabras, E12 is even smaller. (I have adaptors for these).
GU10 fitting 12W downlighters/ spotlights = 90W incand	1650		GU10 is a fitting common in downlighters. I also have a classy light fixture with 3 GU10 sockets.
Downlighter whole unit 100-250VAC, or 24VDC 9,12,15W	2480		For mounting directly into ceiling; combines bright LED lights with the recessed (sprung) fixture. Works from 100-265VAC but you can take off the adaptor and use it with 24VDC.
6W downlighter diffuse whole unit (100-245VAC, or 24VDC)	3300		Attractive low profile bright dimmable unit, if a bit more expensive. 15cm diameter
10W Motion- sensitive LED floodlight (100-250V)	4130		You can adjust the time it comes on, how dark it needs to be to activate, and how sensitive to movement it is.
			
12V DC Lighting			Generally LED W = 10x incandenscent
Recessed light fixture: fixed	550		Fitting for putting the LED light of your choice into the ceiling. You drill a hole into the ceiling and then springs clamp the fitting tight against the ceiling.

Item	Price (₹)	Photo	Description / Detail
Recessed light fixture: movable	830		As above, but tilts a little from side to side so you can angle the spotlight.
MR16 connector	140		You need these connectors to plug the LED lights into. Normally these are above the ceiling if using recessed fittings
MR16 spotlight (60led warm, 4W)	1380		Diffuse spread \approx 40-50W incandescent
MR16 COB 120°, day white 5W	2480		Bright daylight, 120° spread, \approx 60-75W incandescent
MR16 COB 140°, day white 6W	1930		Bright daylight, 140° spread, \approx 60-75W incandescent
MR16 spotlight (9W: 3x3, warm)	1650		
MR16 spotlight (6W/4W/3W, warm, cool)	1100		
MR16 4W multicolour with remote control	2200		
10W Motion-sensitive LED floodlight (12V)	4130		A security light which can run directly from a 12V battery backup system. You can adjust the time it comes on, how dark it needs to be to activate, and how sensitive to movement it is. Runs on 12V AC or DC.
LED strip lighting (5m ~9W)	1930		300 LEDs on self-adhesive strip that can be cut every 3 LEDs for good ambient lighting for a room, under shelving etc.

Item	Price (₹)	Photo	Description / Detail
Light bulb/socket adaptors B22-GU10, E27-E12, E27-E14	690		To let you put a mini screw fitting bulb in a bayonet socket etc.
BA15S socket	550		
BA15D LED tail light	1380		For a car or for fixing in your house using the above fixture; a very compact LED light.
BA15D LED tail light red	1380		For a car or for fixing in your house using the above fixture; a very compact LED light. Red light.
Various DC sockets / plugs	280		Barrel-type plugs and sockets; some for soldering [₹150] and some with screw-in attachments for cable (a little more expensive, but worth it). 5.5mm barrel with 2.1 or 2.5mm centre pin.
LED light dimmer switch	1380		With screw-fix attachments for cables, lets you vary the brightness of almost all the DC lights above.
DC voltage step down	1700		If you want to connect DC equipment that needs less than 12V, I have some to convert to 5V and can get others. Please ask.
Might be willing to sell:			
Kindle Fire tablet	32000		An Android-based tablet computer (WiFi, not 3G) linked to Amazon for reading eBooks, browsing internet, email, watching videos, playing games etc. Lots of Apps to download from the Amazon store and other places. Lovely bright display. Perfect condition.
iPhone 3GS 16GB	23000		Locked to a UK network (orange) so it doesn't work as a phone, but does work as a nice iPod touch using WiFi. Screen has been protected with screen protectors the whole time so is in good condition. Slight crack near the USB/dock connector doesn't affect use.
